

Directions for using EasyBib:

1. Go to [www.easybib.com](http://www.easybib.com)
2. Choose the type of citation you would like to create & click next.
3. Complete the information you need for the reference & Click Format citation at the bottom.
4. If you have more references, complete steps 2 & 3 again.
5. When you have completed all your entries you can choose several export options. At school, we are going to save the list as a word document.

Your list can be saved with the website. They will give you a reference number so you can access it the next time. You can also have the bibliography emailed to you. We will NOT be using the email option at school.
